

Leadership Bulletin March 2022

Here we are in March 2022 I cannot believe it; this year has gone by so fast and with everything changing from one day to next it is hard to keep up with things.

I would first like to give a big shout out to District 22, 16 and 12 for having leadership workshops we had amazing time. I can truly say the American Legion Auxiliary is thriving in California. We are back on the road again for district 29 March 12th Please keep an eye for the flyer. Also, in March tentatively for March 27th I will be hosting a zoom meeting, this will be answer and questions only meeting, I will have a flyer out on the web site soon. Please remember this will a positive experience and no question is not one that should not be asked. We will be going over mainly report writing and writing supplemental.

During my travels as the Leadership chairmen, I have had a lot of inter- actions with all types of members, some being seasoned, some that have been with organization for a while but are taking on new roles and bran new members that would like to have a better understanding of the organization and the programs. The one thing that we try to get a cross to everyone is be yourself and be confident of who you are. Learn all that you can and listen to others don't just hear them.

Times are changing and we must also change. Example remember when you would go into meeting and hand write notes and then pass them out to everyone, it change to taking notes then typing them on a typewriter, then it changed again to taking notes and then putting them into a computer and sending them out email. The point to this is that the base of who we are has always stayed the same, but we need to re-look at the way we do things and make things work for younger generation such as people who would go up the chairs at unit, district or even department but still work full time and or have a family. We need to make things fun and interesting but not take away it importance.

You might not like a person in the unit, district or department but remember, to take a step back and ask yourself what that person brings and what do they contribute if your answer is nothing you might need to dig deeper.

Report writing is on its way Please have your Unit reports to your District chairmen by April 8th and Districts please have yours to this chairman, by May 1,2022. Please let me know if you have any questions.
