

AUXILIARY EMERGENCY FUND

APRIL BULLETIN

2020-2021

Hello Rescue Squad

Well we are getting down to the wire for our year end reports. Please make sure that all District Chairmen encourage your unit chairmen to send in that EOY report. All District Chairmen please make a big push so that we can have a 100% reporting. That would be awesome this year.

This year working the AEF program has been challenging. As some counties have been shut down while others were allowed to be more open. Fundraising has not been very easy at all, however ALA members I'm sure have found some ways to do something.

There is some new information that has come up for the AEF application. Now Units and Departments will no longer be required to sign or approve AEF applications prior to ALA Nat'l Headquarters receiving them. You can now go directly to the National website for applications: American Legion Auxiliary Emergency Fund Application for Assistance; American Legion Auxiliary Emergency Fund Expedited Application for members affected by disaster application which must be received at National Headquarters within 3 months from disaster date. If anyone needs assistance that is where you need to turn to.

In a newsletter received from our National Western Division Chairman says that the Department of California has received two grants. So you see, someone needed assistance and as long as we keep up our fundraising efforts our members will be able to be helped in such time of need.

Please make sure that you adhere to the dates as always it goes from unit to district, district to department, then department to national.

REMEMBER WE ARE MEMBERS HELPING MEMBERS, that is what we are all about.

Thank you for all you do! Have a Hoppy Easter!

Debbie Fletcher
Department AEF Chairman
