Education Bulletin
September 2021

Hello Windsurfers!

Congratulations to Susan Baker, Past Department Education Chairman, and Rodi Andreescu, Allied Unit 302, for receiving best Department and Unit Education Programs respectively, which were awarded at National Convention 2021.

Now that National Convention is over, we will be moving forward with full wind in our sails for our Education program.

If you have not done so already, please ensure you are promoting the Give 10 to Education program. I know schools and teachers can always use help collecting supplies. Supply list recommendations and Give 10 certificate request forms can be found on the website.

The next item to work on is getting the scholarship information out to the schools. Our high school students are preparing for their college careers and now is the time to be applying for scholarships. Our returning and non-traditional students also need assistance. NOTE: Please be sure to use the current application forms. When items are updated, the old forms should not be used and will disqualify an applicant. Do not let that happen.

Lastly, District Chairmen, please use the picnic basket banks I provided at the Clovis workshop. Pass them around at your District meetings to collect donations. Every little bit adds up. The more we collect, the more we can provide in scholarships to our amazing students.

If you have any questions or concerns, please email me at: education@calegionaux.org. Text is also available at 831-233-1639. I teach during the day, so phone calls are not recommended, I cannot answer during school hours. Thank you for all you do for our program.

Yours in Service~

Robin
