

Leadership June 2022

Here we are at the end of year, this will be my last bulletin for leadership. I would first like to thank Madam president for this chairmanship it was an honor and privilege.

I would also like to send out a huge thankyou for the districts that hosted a leadership workshop 23,16,12,22 and 29. The hospitality was out of this world, and it was amazing getting to see each one of you.

I received 26 EOY which was outstanding, not as many supplemental as I would have like to have gotten but the ones, I did receive is going to make this chairman job very difficult but then again, I ask for help when it comes to judging because there is no way I could just pick one.

I was proud to see that it was reported that we had two districts which held their own leadership workshops and four units.

I know we are all getting ready for convention, and I know some of you will be able to attend. Therefore, this last bulletin is so important. It will be last chance to say thankyou for all of your dedication and commitment to this organization. Leadership is alive and well in California.

If you are coming to convention I cannot wait until we are all together again and get to share stories and successes, you have had in your units and districts.

Once again Thankyou for the great year and amazing memories.

For God and Country
Tracy Varnell Fercho
