Leadership Bulletin
September 2022

Hello Members

As we enter the fall season, I am reminded of the changes our beautiful state experiences as it goes through its cycles. With fall, we see leaves turning colors in some areas, we experience temperatures hotter than we would like, and even a cold snap or two. Change is inevitable.

I bring this up because we need to remember our organization goes through changes, too. We must be flexible as we encounter, encourage and mentor new members. Just because "it's the way we have always done it" has been the mantra for many, we must remember we are changing with the times. There are new, fresh ideas coming into our meetings. We need to exercise a "growth mindset" and be willing to hear and try new things. We also need to treat each other with respect and humility. We may not always agree, but we must learn to work together.

Remember-

it's not about us. It's about our Veterans, their families, and our communities.

If you would like me to visit your District for a Leadership workshop, please reach out to me. I can even Zoom in if that works better for you. I will be attending the Northern Workshop. Look me up if you will be there.

Yours In Service~

Robin
